### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

#### **IN THE CLAIMS**

This application is in condition for allowance except for the presence of claims 9-14, nonelected without traverse, as evident by applicant's failure to point out the errors in the Restriction in applicant's response of August 23, 2004.

**Accordingly, claims 9-14 have been cancelled.**

#### **IN THE SPECIFICATION**

**Before the first line of the specification, --This application is a Division of 10/104212, filed March 22, 2002, now patent no. 6,644,229.--** has been inserted therein.

#### **IN THE TITLE**

The title has been changed to be reflective of the claimed invention. The title now reads:

**--METHOD FOR MANUFACTURING A PONTOON--.**

Art Unit: 3725

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: One reason for allowance is that method claims specifically call for the making of a cylindrical member of a pontoon from a sheet of aluminum having a length of at least 14 feet by encircling the sheet about its length to have an internal diameter of at least 20 inches and welding the encircled sheet to itself by a single longitudinal weld where the pontoon is substantially linear along its length and does not deviate from the length in excess of about  $\frac{1}{2}$  inch. The prior art of record does not specify these particular features in their entirety and, accordingly, the method is found to be distinct from that shown by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
